

PT 8633/914 SDI Test Pattern Generator

Supplement to: PT 5300

Reference: Manual no. 9499 491 02811

The supplement describes the modifications made to the standard instrument.

Modification of PT 8633

The Philips pattern, 4:3, 625 lines, has been modified with the logo as described in picture files supplied by IB3, Spain.

The one logo part of the picture have been shaped to give a reasonable video bandwidth. The resolution has been changed to fit the resolution in the generator.

Plot of the modified data stored in PROM's

PT 8633/914

New PROMs installed.

Position:	Code number	Checksum
